### Accountability Pillar Results Report for 2018-2019

November 1, 2019

*WHERE THE WORLD OPENS UP*

The Accountability Pillar surveys are administered annually and throughout the province, during the months of January to March to:

- Students in Grades 4, 7 and 10;
- Students in Grades 4 through 9 (in small schools);
- Parents of students in Grades 4, 7 and 10; and
- Teachers.

Students and teachers complete the surveys online at school while parents receive a copy of the survey that can be completed online, or by mail. Parent surveys are returned directly to Alberta Education.

Responses are collected and tabulated into a summary chart released in May and are updated in October to supplement updated academic achievement results through the Provincial Achievement Tests (grade 6 and 9) and the Diploma Examination results (Divisional and First Nations, Métis and Inuit specific). These achievement reports are provided in a separate summary report on our school's website.

This Accountability Pillar Results Report includes our school's overall summary and new results for all survey measures.

#### **Approximate Survey Responses:**

- 21 parents in our school responded to the survey. This is the same as our 21 responses last year. Unfortunately, low survey responses may not accurately represent our parent population.
- In Parkland School Division, approximately 459 parents responded to the survey. The five-year average for parent responses is approximately 406.
- In Parkland School Division: 2,560 Students (960 in grades 4-6, 700 in 7-9 and 900 in 10-12) responded; this included 83 students who responded from our school.
- In Parkland School Division, 457 teachers responded; this included 18 teachers from our school.

These are approximate numbers as not every respondent answers every question.

#### **Highlights and Celebrations**

Muir Lake School continues to celebrate the strong work of staff, students and our overall community.

- One measure which is noteworthy is the "Safe and Caring School Measure". Overall, Muir Lake School had a 90.8% overall satisfaction rate on this measure, indicating that there is consensus that students are safe in our building. There are many contributing factors to this that include, but are not limited to, a half-time counselor, wellness initiatives such as the Rainbows Program, the Little Men with Big Hearts program that focused on positive communication and social skills, other small groups that focus facilitated discussions on anxiety/social skills. A multi-disciplinary team approach was used to help students in need and/or at risk.

- Our Parental Involvement Measure indicates there is a strong and vibrant parent community at Muir Lake School that volunteers their time and is active in the school community. This is evidenced by the school's hot lunch program run by approximately 20 parents. Further, our School Council is strong with approximately 15 members attending regularly. In our library, we have the Muir Lake Reads program where community volunteers read to children. Last year, we had approximately 10 parents participating in this program. Finally, this does not include the numerous parents who volunteer in classrooms with classroom teachers. As a school community, we are grateful for their efforts and devotion to our program.

Parkland School Division's Ultimate Goal is Student Success and Well-Being. To this end, the Board's current Education Plan targets nine assurance elements in student growth, teaching and leading and learning supports.

There are still some areas for growth within our Accountability Pillar Survey results. Muir Lake School is committed to improvement and continuing to learn and grow with our community. For our action items related to this report, please visit our school's Education Plan section of our website.

### **Areas Requiring Strategic Planning**

- One area that we, as a school, wish to examine is our Lifelong Learning Measure. This measure is the percentage of teacher and parent satisfaction that students demonstrate the knowledge, skills and attitudes necessary for lifelong learning. Overall, we under-performed in this area with Muir Lake School getting at 56.3 % satisfaction rate as compared to 60.3% for Parkland School Division and 71.4% for the province respectively. This may be due to the fact that the school has not historically focused on any type of post-secondary planning or any type of visits to the high school or to post-secondary institutions.
